PROFILE

SAP ABAP technical consultant since 2018, freelance since 2025. 7 years of experience with key accounts: Airbus, Safran Nacelles, SNCF, Orange, Pierre Fabre.

My field: custom developments, user exits and BADIs, ABAP Objects, SAP HANA optimization (Calculation Views, SQLScript, CDS Views), application maintenance (AMS), data migration and mass data creation on S/4HANA.

I bridge business and IT: I read the existing system, understand the need and deliver clean, high-performance code. I work in French, English and Russian.
